

Easy Data Protection for the Cloud Era

Working of the Hierarchical storage architecture in Vaultastic

# Preserving large volumes of email data can be expensive

#### Situation

- You need to preserve email data for Compliance and Litigation readiness
- Former employee email data is required to support smooth role transition.

### Challenges

- Leaving mailboxes disabled on the Primary mail solution is an unnecessary cost
- Storing email data locally can be risky and unwieldy.

## Requirement

- A cost effective safe, secure store for active and legacy email data.
- An easy way to extract or search through this information when required.

# Solution using Vaultastic: Inactive + Active Storage

#### For Frequent Access to data of Former Employees

- 1. Use Vaultastic's ACTIVE store that preserves mail in a search--ready form.
- 2. Use E-Discovery and Export on demand

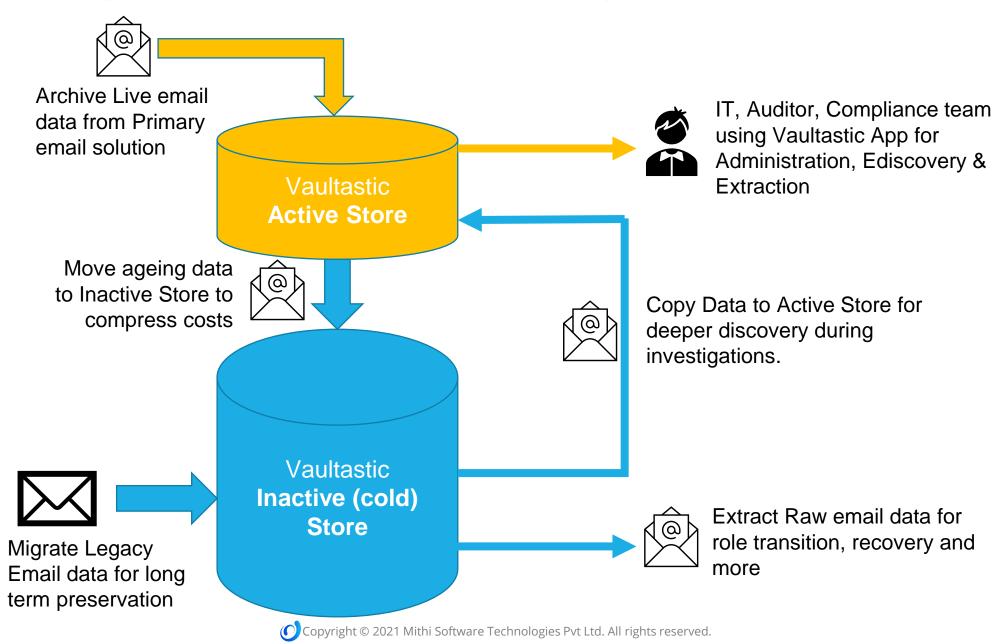

#### For Infrequent Access to data of Former Employees

- 1. Use Vaultastic's INACTIVE store to preserve emails in a raw portable form (lower cost)
- 2. Catalog the email using mail attributes
- 3. Search and copy required data
- 4. Move to the Active store for deeper ediscovery, if necessary.

# Working of the Hierarchical Storage model

#### **Company**

A leading, diversified NBFC, offering financial products & services to rural, housing and infrastructure sectors.

#### **IT Landscape**

Company uses **G Suite** for its business email and workplace productivity and is regulated by RBI and SEBI.

#### Requirements

Company reports a saving of 45% annually to protect legacy email data.

Requests more cost optimization since aged data is accessed infrequently.

**Nov 2019** 

Company reports a saving of 75% annually to preserve former employee data.

Vaultastic carries 75TB legacy email data and growing.

Nov 2020

# A mid-sized leading Financial services company - Top Benefits of Adopting Vaultastic on AWS Cloud

 On protecting infrequently used legacy data and live email data.

75% savings

 Central repository of all email for easy discovery and extraction.

Compliance Ready

 Protect data in portable formats on a separate cloud.

No Vendor Lock-in

"We needed to preserve email data of former employees with ondemand access, at compressed costs. We also wanted to reduce the license cost and cost of ever growing mail data, while staying compliant as per regulatory requirements. Vaultastic helps us achieve the above objectives, effectively." – Read full review on Gartner Peer Insights.
